Pikachu Press is the debut Publishing imprint from The PokÃ©mon Company International! Launching our very first titles in Spring 2012 (based in the Unova region of PokÃ©mon Black Version and PokÃ©mon White Version), Pikachu Press will publish exciting titles and new formats, aimed at kids (and the young at heart) everywhere!

I am quickly approaching the dreaded end of my awesome decade of 20s, but I still very much enjoyed going through this book with my wife for some ol' fashioned, technology-free family

time. The book was clearly aimed primarily at children, and while I don't have any of my own yet, I did give this book a thorough playtest with an actual professional five-year-old. And it was a success! It's basically Pokémon version of Where's Waldo, though admittedly, it's probably not quite as challenging since many times the "hidden" items/Pokémon are relatively large and prominent. But each page gives you a handful of objectives to search for, and several hidden Pokéballs per page. The real question though, is Where's the Kalos version!? (Pokémon X&Y region) I would love an updated book for the Kalos region, with scaling difficulties so there can be many different levels of challenges for all ages. But in absence of this hypothetical future revision, this one is excellent. But I did notice, what's with the author's obsession with Gothita? (S)he's on almost every single page! Sometimes multiple times per page! If it were me writing the book, I would have instead thrown in more Mewtwos. As a 90s child, you just can't beat the original 150. Anyway, I highly recommend this for Pokémon fans of all ages!

A perfect gift for my 5 year old cousin. It wasn't too easy like some Search and Find books but wasn't too hard either.

Two books in one. How can you go wrong.

My 7 yr old loves this!

6 year old loves to read along and search for the Pokémon. Like the where's Waldo of Pokémon, super fun.
