Ready, Set, Find as you read the story of Noah's Ark in this interactive board book for young readers, the back jacket states in Zonderkidz children's book, Ready, Set, Find Noah's Ark.~ What ~This numbered twelve-page board book with rounded corners and five page-tabs targets children ages four to eight years old who enjoy the Biblical story of Noah and the ark. With the left side of the pages being pale colored backgrounds with a sentence or two about the story, underneath are eight colorful objects with their names listed. The opposite pages are detailed and colorful illustrations that match the story and contain each of the objects to find. The simple story includes God having Noah build an ark to protect his family and him when a flood covered the earth because all the people were evil. God sends two of each animals into the ark and closes the door behind them. After the rains and water cease, the ark rests safely on land, and God puts a rainbow in the sky to remind us He will never flood the earth again.~ Why ~Having several

grandchildren who live out of state, I cannot wait to share this cute and fun book with them because they love to match up duplicate pictures. I like how the illustrations are colorful while being easy to identify with some of the same items included again on other pages. It reinforces the iconic story while searching for objects in the artwork.~ Why Not ~Those who do not believe in Christ or have a personal relationship with Him will probably avoid this book that discusses God punishing the people of the earth by flooding it. Young children may get upset that all but a few people died, yet this may be an opportunity to discuss why it happened. Some beginner readers may have trouble reading the book by themselves.~ Wish ~It would help if some of the complicated wording were easier to understand for beginner readers. I wish all pronouns of God were capitalized for reverence.~ Want ~If you are looking for an engaging children's book that is interactive with objects to find in the illustrations, this makes an excellent choice about Noah and the ark. Thanks to Z Blog Squad for this book to read and review.

Read the classic story of Noah's Ark in this engaging look-and-find book for young children. My Review: It has been my privilege to review the Ready, Set, Find line of books from Zondervan. They are really fun books that my son enjoys. Each Ready, Set, Find board book is a virtual treasure hunt to find the items mentioned in the story. Noah's story centers around obedience but along with obedience to God Noah had an awesome thing in his corner--his family. His family was prepared to help him with this endeavor no matter how silly it sounded. In this rendition of the story your little ones ages 4-8 can read along or be read to. At the end of every paragraph they get a chance to find the pictures related to the story that they just heard or read. so it is a great story with something fun to do at the end. It's a shortened, simple version, perfect for little sweet babies and a board book on top of that so perfect for tiny fingers, as well. **Disclosure** This book was sent to me free of charge for my honest review from the author. All opinions are my own.

Ready, Set, Find Noah's Ark by Zondervan is a super fun book for kids! My kids absolutely love books like this where they get to find the hidden objects. I love that all my kids participate from my 2 year old to my 9 year old, it's the perfect family book. I also love that Ready, Set, Find Noah's Ark by Zondervan is an extremely engaging book that my entire family loves. The illustrations are adorable and my kids love to flip through the pages on their own finding the hidden objects and looking at the

illustrations. Ready, Set, Find Noah's Ark by Zondervan is a terrific book for the whole family!

Disclosure: I received product(s) for free, in exchange for my honest review. I only recommend products I've used personally, and believe will be good fit for consumers.

Noah's Ark is a sturdy board book with tabs that make turning each page easy for little fingers. The illustrations are colorful and cute. However, I found it difficult to find some of the hidden tools and animals. A small child might need help looking for the partially hidden items. I do think children will enjoy the short version of Noah's story. This book would be a good teaching tool, as well. I received this book for free.

These books are so cute! Thanks to ZondervanKids for sending us an ARC to check out. My kids love finding everything and sharing the book with their younger cousin too--fun for all young kids!
