Thunder Underground

Synopsis

In this collection of poems, noted childrenâ™s poet Jane Yolen takes readers on an expedition underground, exploring everything from animal burrows and human creations, like subways, near the surfaceâ™ to ancient cities and fossils, lower downâ™ to caves, magma, and Earthâ™s tectonic plates, deeper still below our feet. At the same time, in JosÃ©e Masseâ™s rich art, a girl and boy, accompanied by several animals, go on a fantastic underground journey. This book contains science, poetry, and an adventure story all rolled into one. But itâ™s also more than that: In these poems we see that beneath us are the past, present, futureâ™ history, truth, and story. This thought-provoking collection will evoke a sense of wonder and awe in readers, as they discover the mysterious world underneath us.

Customer Reviews

Twenty-one poems...encourage children to explore what is under their feet using imagination and wonder. (E)ach poem honors the ability of young readers to navigate syntax, imagery, and wordplay. Yolenâ™s treatment of the underground is expansive...(and) Masseâ™s mixed-media illustrations portray the imaginary points of view with aplomb. A thoughtful exploration of nature expressed in poetry that should open the eyes of children to unseen worlds. • Kirkus Reviews, starred review *âœœ* This collection illuminates the rich world of activity that goes on beneath our feet. The warm, naturalistic illustrations of underground scenes...often contain an element of charming whimsyâ™ (and) nicely compliment the verses. Great for either a school or public library. • Booklist
