New York Times best-selling authors Esther and Jerry Hicks produce the Leading Edge Abraham-Hicks teachings on the art of allowing our natural Well-Being to come forth. Law of Attraction workshops held in up to 60 cities per year inspire a regular flow of Abraham books, CDs, and DVDs.

OMG I LOVE TRACK 2.. Bouncing Off Place - I am smiling right now just thinking about listening to it. It makes me smile and laugh even at my worst times... It sounds like a bunch of electronic dolphins saying "Weeeeeeeeeeeeeee!!!!!!!" and that's how it makes me feel!! You can't listen to this one and not feel good.

Perfect in every way! Love these series!

Love this stuff.

see my rating on "new adventure". I got all three CD's and listened to them in the car, this one has some annoying sounds. Again, it is positive, uses Ester's voice.

Love this Source collection. Great for a gift too!

The is very uplifting ! I usually play softer music but got to like this too. I find myself blasting this whenever I feel like getting a mental energy lift . Works wonders for late night driving on the highway! Thanks !

I own many Abraham books, DVDs and CDs including the excellentÂ Getting Into The Vortex: Guided Meditations CD and User GuideÂ and was expecting something along the same lines as this or something like the brainwave electronic sounds CDs of Tom Kenyon or the brainwave music of Jeffrey Thompson which are based on scientific studies of higher states of consciousness. For instance, the brain states of Buddhist monks in meditation have been studied and these brainwave CDs are programmed to induce similar brain patterns in listeners to help achieve higher states of consciousness. These are true 'leading edge vibrational music' works. Rather than any of the above, I was very disappointed to hear the awful music on this CD accompanied with badly blended and repetitious excerpts from old Abraham quotes. There is no new Abraham material here, and the music is more appropriate for a psychedelic disco club or such activities as running or driving at speed, and I use much better works when doing those types of things. This seems like a badly done attempt to produce something striving to become commercially popular. I personally own and like most types of music when the setting is appropriate but I think this CD music is awful in any context and must agree with other reviewers who find this work to be quite annoying and report getting headaches rather than feel-good blissful enlightenment. We are each unique and have different tastes, opinions, needs and expectations so my advice to anyone thinking of buying this would be to first listen to samples on the Abraham-Hicks web site and see if you like it. That's what I should have done if I'd thought about it before hand but will now return this to .

Love Love Love it!!!
