Customer Reviews

The seventh episode of the Children of the Red King series moves the main plot forward an inch amidst yet more scheming and attempted murder by the increasingly powerful supporters of evil Count Harken. Charlie passes repeatedly into a painting that transports him (once with a snake that renders him invisible) into the dismal land of Badlock; by the end he has done a good deed for a grieving giant but left friend and pivotal character Billy Raven in the oily Count's clutches. Confirmed fans will care. Grades 4-6. --John Peters --This text refers to the Preloaded Digital Audio Player edition.

If you are a Harry Potter fan, then this series is a must. I really enjoyed this series. Brings back Harry Potter style.

Good read, fun, Harry Potterlike.

In this series the children have special powers which some use for evil and some for good. Charlie Bone, the main character, has many good qualities which endear him to his readers. I found this to be a very engaging series suitable for anyone in the third grade and up. An added bonus is the large spacing between the sentences that helps readers stay on track when reading. Compared to the other books in the series, we found that we had to read a lot longer before we could get to the exciting parts. The previous books were faster paced. We still enjoyed this book.

this should be "the shadow of Badlock" which is the title of another book that I also purchased, same book, two similar but different titles, so I wasted my money on this one

Great book, love the series!

Great book for the younger generation, and even for us older ones. Great read, great fun!

I bought a series of Charlie Bone Books for my 11 years old daughter and she really enjoys reading those book. I keep her very active in reading and she like's telling us about what she read in the different chapters.
