Disneystrology: What Your Birthday Character Says About You

Synopsis

Disneystrology combines astrology, numerology, and the magic of movies to help readers understand their own personalities. Noted astrologer Lisa Finander has identified 366 unique Disney character types everyone from Snow White to Wall-E and paired these characters to corresponding birth dates. Readers born on November 9, for example, are typically exuberant, friendly, and youthful traits best exemplified by Pinocchio. By contrast, readers born on February 22 are often powerful, principled, and determined the perfect words to describe King Mufasa of The Lion King. Readers will also discover character profiles, compatible birthdays, tips for dealing with others, and much, much more! Illustrated with hundreds of stills from more than 90 years of classic animation, Disneystrology is an entertaining tribute to the most delightful characters in movie history

Lisa Finander is an author and editor living in Minnesota, where she earned her B.A. in psychology and symbolism from Metropolitan University. She has taught classes, given lectures, and held workshops on astrology, tarot, Jungian psychology, meditation, and spirituality.

I actually purchased this book to have characters sign their pages while we were on our honeymoon at Disney World and on the Disney Cruise Line. I loved looking through the pages for everyday. The little insights for each character were cute and interesting. Plus, the book size is rather small so it's easy to carry in Disney parks, etc.

This was one of the items my daughter wanted for her tenth birthday. She enjoyed it for awhile but eventually out grew it.

not a story book - it is like a daily horoscope book only with Disney characters

Great fun to have sitting out on your "coffee table"---promotes wonderful conversations and is just plain fun !!

I once saw Disneyastrology at a Burlington Barnes and Noble but I never actually bought it because of the outrageous price... But when I saw the VERY reasonable price the seller was offering I was hooked :) And even though I haven't started reading it yet it seems like a GREAT book that I'm eager to start reading :) :

I am not a fan of astrology but I love this since it gives a sense of personality types.

We used it at a party and read off the guests horoscopes. It was very interesting. The descriptions were pretty close to the guests personalities.

This book is so cool! I love it! It makes a great addition to my coffee table collection. 5 Stars
