Customer Reviews

This is yet another exceptional anthology in a long line of great publications from Hal Leonard. Available in both high and low voice, the selections contained run the gamut from traditional, well-known song cycles to exciting little-known works. Translations, IPA transcriptions, historical background - it is all here to help you and your students explore the wonderful repertoire of spanish art song.

A must for any singer or accompanist. I bought it for de Falla's Seven Popular Songs in a high key (which could be a bit higher. Some essential material is included (like de Falla, for traditionalists like me) and some unknown pieces (for the risk-taking singer) are included as well. Great price.

I use this anthology all the time in my voice teaching. Wonderful selection of composers.....highly

recommended for all levels of singers looking for Spanish art songs.

Was just great!!! There are so many different songs in this book! I love this book! I know I will learn many!

Worth the financial investment

Good mixture of songs within this book. I am singing a cycle out of it soon and I am glad I got it.

The standard and quality I've come to know from this publisher. All in all a good book to teach from.

This is a great introduction into Spanish Art Song. After Schirmer's "First Book" series, which also has a decent assortment of Spanish music, I recommend picking up this piece. Not as full as the French Song & Lieder Anthologys, but very well put together. The pieces allow for a wonderful variety of song ranging from very danceable to melancholy.
