Customer Reviews

We always buy maps for our intended vacation destinations months before the trip. We study the entire region and along with guide books choose one particular area as a focal point. The Michelin Regional Maps are extremely useful in helping us make this decision and to see the interesting sites within short distances for us to fan out and explore. After our daily trips, my husband highlights the routes that we have explored and the map then becomes a keepsake. Love them.

Wish I could go there but studying the map helps.

Maps from Michelin I use since decades and they are simply great!

Very detailed, but EXTREMELY cumbersome. Used it initially then discarded it and just used GPS.
