Gossip Girl, Psycho Killer

Synopsis

Welcome to New York City's Upper East Side, where my friends and I live, go to school, play, and sleep-sometimes with each other. It's a luxe life, but someone's got to live it . . . until they die. So begins *Gossip Girl, Psycho Killer*, a re-imagined and expanded slasher edition of the first groundbreaking *Gossip Girl* novel, featuring all new grisly scenes and over-the-top gore by #1 New York Times bestselling author Cecily von Ziegesar. Just as in the original story, Serena returns from boarding school hoping to make amends with her BFF Blair Waldorf--things just haven't been the same since Nate Archibald came between them. But here's where our dark tale takes a turn: Serena decides that the only way for her to make things right with Blair is to eliminate Nate. If that means killing him, well, c'est la vie. Her attempted murder doesn't go unnoticed by Blair, however, who isn't about to let Serena kill whoever she wants-not when there's Cyrus Rose and Chuck Bass and Titi Coates and everyone else who's ever irritated Blair to get rid of first *American Psycho's* Patrick Bateman has met his match in Manhattan's newest, most fabulous trendsetting serial killers, Blair Waldorf and Serena van der Woodsen.

Customer Reviews

Cecily von Ziegesar is the creator of the #1 bestselling *Gossip Girl* and #1 bestselling *It Girl* novels. She has always lived in New York City.

Usually, the book is better, but in this case it wasn't. If I read the book first, I might have liked it more; however, since I watched the show first and enjoyed that so much, the book just didn't live up to my expectations.

Can't stop reading, but that's because I can't stop a series once I've started. I'm dedicated. Lol but I like it but at the same time I just don't feel like the characters are realistic and maybe that's because I grew up in a small town in Oklahoma and we don't have super duper rich heiresses running around, or I haven't met one.

I read a bunch of Gossip Girl books in high school in absolutely no order. They were all rentals from the library. I loved these books when I first read them and would like to collect the entire series to own. While I am collecting the series I am re-reading the books for the third time. I really enjoy diving back into a series I enjoyed so much growing up!

Very short books... you have to keep buying the next book to get a decent length story.

I absolutely love the novel, don't get me wrong. It's just that I ordered it used. Now, I expected it's condition to be fairly worn; I had no problem with that. Some pages falling out here or there would also not be a problem... if it hadn't been 30+ pages. I tried my best to fix the damage so now it just looks kind of shabby, but the book itself isn't half bad. Definitely recommend reading it!

I suppose it really hampered the way I read this book after watching the show and even though I don't have a lot of love for the characters on the show, they look like angels compared to the book. The characters were vile and it painted a nasty picture. I do like a less bitchy more human Blair and a less scheming Jenny.

This was really awesome! It really developed the characters well. The head hopping was a little confusing at first, but after a while you could kinda start predicting whose feelings, thoughts, and point-of-views belonged to who--the writer organized the stream of thoughts well. This book has definitely encouraged me to read the next one in the series.

I did this backwards. I loved GG on TV, so then I decided to track down the books. They're fabulous. Blair is such a B...and Serena is...well, Serena! I was worried that the books wouldn't have the same

awesomness as the series, but I was pleasantly surprised. I'll be reading the entire series now, thanks. Gossip Girl is my guilty pleasure. I loved reading about the naughty lives the Upper East Siders lead, and living vicariously through them. Totally a fun read, and I cannot wait for book #2 to arrive!
