Fun With Cars And Trucks Stencils (Dover Stencils)

Synopsis

Here are six child-size stencils of subjects children love: a sedan, a delivery truck, a fire engine, a big rig, a Volkswagen "bug," and a motor scooter. With these six full-page, pre-cut stencils, youngsters can create artworks to paint or color, illustrate a story or message, decorate toys and stationery, and much, much more. And they can use these stencils with automotive themes over and over again. So much fun for such a small price!

Customer Reviews

My triplet grandsons age 5, loved them. They are at the age where they are starting to define their fine motor skills and enjoy tracing and stencils. Excellent skill builder.

These were not exactly what needed. They are not that thick and for children they won't last too long. The pictures are good and are good for single use.

I bought about 10 books like this including alphabet, mazes, numbers, stencils etc. for my 4 year old granddaughter. She loves things like this and when I talked to her after Christmas she said she loved them all. I would recommend all of the workbooks I bought her.

Great to use for Transportation theme

These are fairly small, but my toddler loves them. It's easy for a younger child that doesn't have the coordination and hand strength to draw yet to make pictures using these.

My son has enjoyed using these stencils. They were bigger than I expected. If you lined them up along the long side of a letter-sized paper, you'd fit 2.5 on them. I wish they were more proportional to each other though. For instance, the scooter is enormous compared to the fire engine. The cardstock is pretty durable, so I suspect they'll hold up for a while, but if they rip, it's not the end of the world.

The boys love it. Even the 3 year old can make trucks and he feels accomplished.
