Stoelting's Anesthesia And Co-Existing Disease E-Book

Synopsis

A classic since its first publication nearly 25 years ago, Stoelting's Anesthesia and Co-Existing Disease, 7th Edition, by Drs. Roberta L. Hines and Katherine E. Marschall, remains your go-to reference for concise, thorough coverage of pathophysiology of the most common diseases and their medical management relevant to anesthesia. To provide the guidance you need to successfully manage or avoid complications stemming from pre-existing conditions there are detailed discussions of each disease, the latest practice guidelines, easy-to-follow treatment algorithms, and more. Presents detailed discussions of common diseases, as well as highlights of more rare diseases and their unique features that could be of importance in the perioperative period. Examines specific anesthesia considerations for special patient populations—including pediatric, obstetric and elderly patients. Features abundant figures, tables, diagrams, and photos to provide fast access to the most pertinent aspects of every condition and to clarify critical points about management of these medical illnesses. Ideal for anesthesiologists in practice and for anesthesia residents in training and preparing for boards. Includes brand new chapters on sleep-disordered breathing, critical care medicine and diseases of aging as well as major updates of nearly all other chapters. Covers respiratory disease in greater detail with newly separated chapters on Sleep Disordered Breathing; Obstructive Lung Disease; Restrictive Lung Disease; and Respiratory Failure. Provides the latest practice guidelines, now integrated into each chapter for quick reference.
