Stop worrying that you don't have the perfect body, perfect job, perfect relationship, or perfect anything for that matter. Stop letting other people draw boundaries and limits around your life. And start living the life that you truly want (now!), the one you didn't think you had the courage to imagine, but the one that's absolutely possible! National non-profit organization I AM THAT GIRL was founded in 2008 by Alexis Jones and Emily Greener to address the growing need for community for girls and young women by helping to build self-esteem and realize their full potential. Recognizing the potential dangers of living in a digital age, consumption and media definitions of what is beautiful, the organization has an interactive platform with content designed to inspire and encourage. The organization helps girls and young women throughout the country to create support and community through the establishment of local chapters who meet regularly to discuss and share feelings about relevant and pressing topics such as bullying, current events, eating disorders among others. I AM THAT GIRL provides the curriculum to help guide discussion and provide ideas for calls to action.

I absolutely loved this book. I have so many tabs in it to go back and refer to pages for self growth and growth in my business and leadership! I really enjoyed all of the little stories from other woman

that pulled it all together and helped show you are not alone and struggle. Very impressed by this book and would highly suggest to anyone trying to become a better version of yourself, an amaZinf leader, and making that difference!!!! Just do it. Stop doubting yourself! #BeThatGirl

Alexis Jones has an amazing perspective on life and I've learned so much about myself from this book. I love that there are perspectives from several women throughout the book on different topics. Any young woman should read this book!

There are parts of the book (pieces of advice) that are clearly aimed at women younger than me, but as a nearly-fifty-year old with a newly-empty nest who is *re* discovering her passions, I thought this was a great read! I'm not big on self-help, most of it is just good advice and common sense, but the good advice and common sense here were delivered up by Ms. Jones in an upbeat, easily approachable way that never felt preachy; it was more like sitting down and talking to a friend than it was reading a book). It is definitely a book I would get for a younger person (including my daughter)--but we all face moments in life where we feel a little lost, moments where we need to figure out who we are (or who we want to be) and re-ignite the creative fires and remembering how to fly. There is no age-limit on seeking your dreams, no matter *what* society tells you.

I LOVE this book. It has helped me to learn so much about myself that I didn't realize, like why I keep things to myself and why I don't try something new. Because of this book I have been able to open up just a little bit more and find out who I really am and who I am suppose to be.

I really loved reading this book! Alexis Jones writes in a more conversational and relatable way that gets her information across very nicely. It is an empowering book for young women. It definitely gets you thinking about who you are and what your purpose is. The stories from other successful women made you feel like you are not alone in your thinking or what you do and how you feel. Great read and highly recommended!!

I'm loving this book. I love that it not only reaffirms what I feel but it encourages me to strive higher. The real stories that help explore each topic help me to really connect with each theme and subject within the book.

Learn about who you are in this book

This book is amazing. Really impowers girls while staying on a positive note rather than focus on what all we are doing wrong. I will give this book to every college girl I know !
