Synopsis

Irresistible interiors that capture the essence of seaside living. Â Everyone dreams of a house by the sea, and this book presents the best examples of homes for escaping to the serenity of the seaside. Beautifully photographed interiors, exteriors, gardens, and patios offer a peek into these appealing homes, including Martha Stewartâ€™s Seal Harbor, Maine, residence, Donna Karanâ€™s Zen-like East Hampton retreat, Tommy Hilfigerâ€™s Pop artâ€inspired Miami house, and Giorgio Armaniâ€™s Antigua getaway. Such top designers as Martyn Lawrence Bullard, Steven Gambrel, and Ken Fulk have decorated these lovely and inspiring homesâ€in quintessential seaside communities, including Block Island, Harbor Island, Malibu, and Marthaâ€™s Vineyard. Â A seaside house is a place to unwind in a relaxed settingâ€white floorboards, whimsical nautical touches, pastel tones, and vivid colors. Indoor-outdoor living is the norm. Yet it is also a place to entertain friends and family in style and can express a range of chic decorating and design tastes. From clean, modern beach houses to traditional-style cottages, these breathtaking interiorsâ€presented by a team known for style and tasteâ€will inspire homeowners, designers, and anyone who loves a water view.

Beautiful book with lots of excellent photos and great ideas for house we are building

Beautiful book, all very tastefully done. It is comforting to see there are some with wealth who have great taste..

Such a high-end book!

I love the cover of this book but the contents are not reflective of that cover. I was looking for inspiration and all I found was same old, same old. Save your money and look for something better than this book. I might also say that it's really hard to judge a book by it's cover. That's what I did and was disappointed. That's where it's nice when you actually see the book before buying it. The advantage of looking at it in a bookstore.

Really great book. No "beachy" kitsch or cliché's, just loaded with beautiful pictures of homes from coast to coast. The only common denominator is the amazing water side locations. Beyond that, there are very modern homes as well as those more traditional in feel. I have literally hundreds of design books, and this has become one of my favorites. My only wish is that all design books featured plans or layout drawings too; I like to get a feel for how the rooms all relate to one another and how the entire space flows. That is only my personal preference, I know many people don't miss the blueprints. In summary this is a well thought out, beautifully photographed book of homes that each have a decidedly different point of view design-wise.
