Learn How to Quickly Solve Difficult RHIA & RHIT Exam Questions

Here's a little "secret" about the RHIA & RHIT exam: the RHIA & RHIT exam are what we in the test preparation field call a "content driven" test. While some tests are looking to see what you are ABLE to learn, the purpose of the Registered Health Information Administrator (RHIA) and Registered Health Information Technician (RHIT) Exam, offered by the American Health Information Management Association (AHIMA), is to test your understanding of what you have already learned. The goal of the RHIA & RHIT exam is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about what you know than your ability to solve clever puzzles.

This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the RHIA & RHIT exam by learning critical concepts on the test so that you are prepared for as many questions as possible. Exactly what I was looking for! Most other study guides are just questions. This covers most if not all the material that those questions come from. Notice that current coverage is about 50% information technology, 25% health information management, 25% every thing else. Cards are labeled so you can keep them in groups if you like or, of course, mix them up. I recommend going through these cards first and then start doing the question review.

The cards holds a lot of valuable information; however, its still a lot of information per card so I highlight the important terms. In addition it would have been helpful if these cards came with an online disk and had studying games pertaining to the cards for additional practice. For example there could have been matching games, trivia, quick practice test etc. Overall I am still using these cards along with a textbook as my main studying tools so hopefully it prepares me for everything I need to know for my upcoming exam. Thanks

TOOOOO MANY WORDS ON ONE CARD IN VERY SMALL PRINT...was not helpful.

Its easy study with a small flash card, I don't get stress as usual when I study with a "thick" book. Its easy to carry in purse or wallet then a "Heavy" book. I repeat studied flashcard every day.

I am absolutely thrilled with my purchase. I love how they are labeled by domain and they offer a ton of beneficial information. In the past I have made my own flash cards and it nearly did me in for how long they take. I was so excited when I found a system I could purchase that was affordable and very helpful. I can't wait to get studying for my RHIA.

The flashcards offer a different type of studying. Rather than multiple choice, the discussion questions allow me to make sure I fully understand the material. I also like the detailed discussion answers on each topic that is covered on the RHIA.

I have received my flash cards and I they are very helpful! I am still studying for my RHIA. The flash

cards are organized very well and the answers are described in detail, which is very helpful

After looking over some of the flashcards, I am impressed with all of the information that is packed into each card. To have all of the information in one location makes studying easier. I know I made the right choice.
