Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Such a great surprise - several beautiful lullabies that I've never even heard before in addition to some of the american classics. The sheet music is also written in keys that most people with a normal range can hit; some books I've found are scored much too high or low for most people to sing comfortably. This book is especially great as a gift for new parents with some musical talent.

My music prof. was impressed with this paper. He added more points for my usage of this fine quality music sheets.

Good deal for staff paper. Easy to use and I can pass out the sheets as theory homework to my students easily.

This is better and cheaper than printing your own. Having abundant staff-paper inspires students to write musical ideas in standard notation, which is the main reason I need it. Sheets tear out easily or will remain in place if you prefer. If you are a music teacher, band leader or composer, buy at least three at a time to save on shipping. Great deal!

I majored in music and I bought one of this staff paper book, various years ago. It lasted almost all of my 4 years. I'm buying another one on here, 'cuz now no music store around sell these. They got their own store's music notebooks and don't want to sell this.

If you have a teacher like mine who likes to give assignments daily and requires you to have stacks on stacks of staff paper ready, this book is perfect. I find the staves to be good and dark enough because no matter how many times you mess up, they'll still be there after you erase and won't fade. Plus you have 500 pages to work with. That's the one thing I'd be weary with though. Most of my classmates have an average spiral they bring to class while this book is the size of one of my thicker college textbooks. I usually just bring enough to get me by and I think people who buy this will be fine as well. tldr; BOOK GOOD. MANY PAGE. BUY NOW.

This book of staff paper was extremely cheap, but not cheaply made. The book was a lot thicker and larger than I expected, which makes me exceedingly happy. I have recommended this to music friends, and if I ever use up all of the pages (I doubt I will), I will definitely buy another one here on .com. Reference: I am multi-musician with 10 years of classical experience.

I bought this for my son who is majoring in music and currently in conservatory. He composes music using staff pages and a dip pen. This book has plenty of staff paper to use, came in a timely fashion and the paper is pretty resistant to bleeding through with this type of ink. A very good deal for the amount of paper in the book.
