Drummer's Cookbook

Synopsis

Take your creativity to another level with this book! Rock music is, or should be, a form of personal expression. This text was written to encourage and develop the drummer's ability to create and develop his own ideas from a solid foundation. This is one in a series of books that deals with one of the most important aspects of rock drumming that of rhythmic improvisation. Topics covered in this book are: The Rock Feeling, The Variations and Development of a Basic Figure, Rhythmic Improvisation, Solos, and Cymbal Variations with the Right Hand. Recording by Frank Briggs. Audio download available online.

Customer Reviews

I have a lot of drum books and find most tedious and boring. This book is awkward in that it seems written by someone who didn't play rock drums who is trying to teach someone rock drums in the early 70s as if rock drumming just started. The bass drum parts are unnecessarily busy right from the beginning. A much better modern day drum book somewhat similar to this style is Dawn Richardsons Building Blocks of Rock. If you are a self learning, her much is much better written and much more logical.

Great instructional drum book!. Also great when I apply various systems and patterns to each exercise.

Great book

It ok
