This is great if you're a medium level or above drummer. I bought this when I first got my set and it was a little above my skill level. Lars is a beast on the drums, prepare to get a workout! If you're more of a beginner you might want to start with some Ringo Starr beats.

Awesome thank you!

I have always been greatly influenced by Lars. I would pick up the beat and play air drums. Now that I have my own set been playing a couple years I really get into and like this book. I like the tips and reasons why. Now that I do know how to read drum music it is so cool going over and actually trying this stuff on my own actual drum set. I am working on Seek and Destroy. I actually just finished my nights practice. I like this and plan on getting more. Thanks LarsKC

Yeah I order this or at least I thought & ended up receiving the guitar tablature for the black album which would of been awesome but the thing is I can't play the guitar!
