Customer Reviews

I am learning to speak Portuguese this semester, so this book comes in handy a little bit. I say that because upon flipping thru the textbook I discovered that you would need additional materials covering Brazilian Portuguese language for myself of course. The back of the textbook gives great vocabulary words alongside English translation. Also, nice illustrations throughout the entire textbook.

Excellent textbook for learning Portuguese. It presents a balanced view of the different ways the language is spoken in Portugal, Brazil and other Lusophone countries. And the short passages about various regions of the Lusophone world at the end of each chapter are intriguing, making you want to be able to read them easily.

Excellent. Item is as described. Fast shipping.

Just what I need it!

I bought this book for my Portuguese class at college. Compared to other language text books I have used, I found this book (and the style it is written in) to be extremely helpful when it came to actually learning the language.

Started going through exercises but it turns out I'm missing pages 14-33. Who rips pages out of a

digital copy ?

Overall the text is very good. I have learned a lot of Portuguese using it in my intermediate class at college.

This is an excellent book if you want to study Portuguese in depth. It has extensive lessons on vocabulary and grammar, as well additional activities and a workbook. Phrase books are great, however, if you want to reach an advanced level, this book is the one that will take you there.
