great book! I liked it very much. The student who got it found it very challenging so I would say make very sure your student is going to be able to handle this; it moves more quickly than the regular piano adventures. Just saying...it truly is accelerated.

Worked out good.

great songs; useful progression of difficulty; the duets are well arranged (and it's so fun for beginners to play music with their instructors!)

I use the Faber series for all my students. The only book in the series I'm not wild about is the primer level, so whenever I have a bright enough/old enough student--even 7 years old, I'll start

them right into the Piano Adventures Level 1 Accelerated version. Great stuff. Teaches very systematically and not too fast for all but the youngest students. Their arrangements are very musical. I've been teaching piano for over 20 years and have used various methods in the past, but switched to Faber about 5 years ago and love it!

I'm currently learning to play piano and am using Performance Book 1. I should be advancing to this book in the near future.

excellent for beginners, great song selections clearly written,

Great music book!

Perfect
