I love Yiruma, so these songs are great to me. However, the arrangements are not same as the ones I was used to playing, which I got free online. It's simplified and edited in this book. I prefer the old ones, but the changes are pretty subtle and unless you're really familiar with the old arrangements, you wouldn't really mind or even notice it. I'm not sure if these changes were made by Yiruma himself or the editor of the book. It feels like a pretty basic paperback, but with a shiny and sturdier cover. It can be quite hard to keep open at the piano, unless it's well-used and you press hard along the spine to make impressions to keep the pages flat for reading. Level of playing is average or intermediate, about ABRSM Grade 4-6 level. Another issue for me was that the staves could be more compact- they could fit more into a page and avoid needing to turn the pages more often than necessary. Also, there could be more thought given to where is the best part of the piece to cut off before turning the page without a break in playing. But overall, a good book to have for Yiruma lovers. Just listen to some of his pieces online, and if you like it, you'll have a blast playing this.

I really like that the songs are easy to play but I only like a few of them enough to learn them and play them. My favorite is "River Flows in You". Still Yiruma is very talented and I'd recommend the book to anyone who is a fan of this style of piano.

Beautiful and original piano music. Suitable for pianist at intermediate level.

Intermediate to Advanced level. If you like the soundtrack, this is the book for you.

Great book. Love the arrangements, classically inspired but still modern. A lot of them are in 4 flats. So, it takes a late intermediate to early advanced to play some of them....

Great piano book

Best ever!!
