Customer Reviews

I bought this lab manual for a class and I have prime. The reason why I chose from this buyer is because it was the only one with Prime. I really needed it for a class, so I ordered it on a Friday. The expected delivery date was for that Monday, which I thought was perfect because I needed it for my Tuesday class...however the package did not arrive until Wednesday. It was very inconvenient and the quality of the lab manual itself is torn up. Overall: I am not a happy camper about this product.
