Purchased Essential Techniques for Band, Book 3, and Essential Elements for Band, Books 1 & 2, by Hal Leonard along with a first Clarinet for my 11 year old granddaughter. Also purchased a second set for myself since I haven't played my Clarinet since 1957 in HS, and I want to see what she's learning. Surprised me, when her Father, (my son), was the first to use the books to assemble her Clarinet and played some basic notes without having any prior musical instrument experience. For me, at 73, it's a good refresher and I certainly need all the basics before I can progress to Hal Leonard's Clarinet Books "Songs of the 40's Songs of the 50's, & Songs of the 60's".

Perfect book thanks

Used these books in middle school and now I couldn't think of any other learning books for my brother to start off with for his clarinet. Very easy to follow and read.

Bought this for my wife. I highly recommend any of the Essential series book by Hal Leonard. They have been edited and updated throughout the years to be far superior to any other book I have come across for learning an instrument.

Well written book for beginning clarinetist. Was able to follow the instructions. Led me seamlessly into the next phase. My wife who taught music for 40+ was also impressed with the lay out and methods.

Fun book for early intermediate level players; good arpeggio and scale exercises plus lots of short melodies.

Perfect, just what was needed

Just what my daughter needed for Band class and it cost less than purchasing though the school.
