Animal Kisses (A Touch And Feel Book)

Synopsis

Do you like scratchy cat kisses? Or do you prefer squeaky pig kisses? How about a velvety cow kiss? Kids will adore puckering up to Barney Saltzberg's irresistible menagerie of animals with fuzzy, sticky, and rubbery mouths just waiting for big smooches.

Best Sellers Rank: #32,202 in Books (See Top 100 in Books) #55 in Books > Children's Books > Early Learning > Basic Concepts > Sense & Sensation #1857 in Books > Children's Books > Animals

Customer Reviews

Barney Saltzberg has written and illustrated numerous children's books. He lives in Los Angeles, California.

Each child of mine has loved this book so much that I've had to make multiple purchases of it. Holds a special place in my heart

I guess I was expecting more out of the book. It is not a big book roughly 10 pages. Each animal has a material on it that you can feel for a child's touch sensors. However, I wasn't too impressed.

Animal Kisses is a cute little touch and feel book that will bring enjoyment to a variety of ages. Each 2-page layout features a different type of colorfully illustrated animal, and part of each animal is textured for the reader to feel. For example, the cat page asks "Do you like scratchy cat kisses?," and the cat's tongue is a sandpaper-like material. Other textures include smooth, sticky, velvety, and even squeaky for the pig (although, like other reviewers have said, you do have to press the pig's nose just right in order to get it to squeak). My 3-year old niece loved reading the book and

was able to tell me which kisses were her favorites, and even my 1-year old niece enjoyed touching the pages. This is a fun, cute little book that is appropriate for both younger and older toddlers; highly recommended!

My daughter was recently diagnosed with autism and sensory processing disorder and she is 2. She LOVES this book because of the different textures on each page! I recommend you buy new though, on the page with the dog with the "sticky tongue" it gets pretty grimy pretty fast.

A great book for little ones 4 months-3 years. I get it as a present for other kids. Our daughter loves it. Each page has a different sensory touch. It helped my daughter get used to sticky things. She used to be terrified, but thanks to this book, she now loves stickers. Before she'd cry whenever she touched them.

My 9-months old daughter absolutely loves this book and makes me read it again and again. One of the few things that will make her sit still for more than 5 minutes

I read the reviews and ended up picking this one. It is very simple, but such a great addition to a little, little one's library. There was definitely a variety of textures and I loved the last page that had a squeaker in it! I highly recommend this book!

Great book for toddler. My two-year-old has played and played and played with this book. The pages are a little bit more flimsy than I would have liked but considering how many times she's played with it it's understandable.
