I recently purchased this textbook for my Business Ethics class. The price was very reasonable compared to many other website offers. It is lightweight, small and is in mint condition. It doesn't have any writing/highlighting/wear or tear on any of the pages. The book is an easy to read book. It also came before the estimated delivery date, which was a huge plus for me, because I am a current college student. I would recommend this book to anyone who studies business, Or Needs the book for their Business Ethics class.

During my MBA curriculum I had some pretty dry textbooks. This was not the case for this business ethics book! I actually enjoyed reading the case studies (I know, weird right?). I kept this book

instead of selling it at the end of the semester.

Quality as described.

Much more interesting than expected...

Arrived in better condition than at the local book store!

Good

No issues Good Product, Was what I expected will buy from them again.

The whole first chapter fell out of the book
