One Piece Box Set: East Blue And Baroque Works, Volumes 1-23

Synopsis

A premium box set of the first two story arcs of One Piece, one of the most beloved and bestselling manga series of all time! As a child, Monkey D. Luffy dreamed of becoming King of the Pirates. But his life changed when he accidentally ate the Gum-Gum Fruit, an enchanted Devil Fruit that gave him the ability to stretch like rubber. Its only drawback? He'll never be able to swim again--a serious handicap for an aspiring sea dog! Years later, Luffy sets off on his quest to find the "One Piece," said to be the greatest treasure in the world... This box set includes volumes 1-23, which comprise the first two story arcs, East Blue and Baroque Works. With exclusive premiums and great savings over buying the individual volumes, this set is a pirate's treasure for any manga fan!

Customer Reviews

Eiichiro Oda began his manga career at the age of 17, when his one-shot cowboy manga Wanted! won second place in the coveted Tezuka manga awards. Oda went on to work as an assistant to some of the biggest manga artists in the industry, including Nobuhiro Watsuki, before winning the Hop Step Award for new artists. His pirate adventure One Piece, which debuted in Weekly Shonen Jump magazine in 1997, quickly became one of the most popular manga in Japan.

It seems long overdue and I was overjoyed when I discovered that this box set was finally to be released. This set comprises the first two major story arcs in the One Piece saga in close to 4500 pages, and roughly one third of the total volumes of One Piece published at the time of its release.

Extra gems that are included are: the pre-serial short story 'Romance Dawn' which explains the relationship between Luffy and Red Hair 'Shanks', and an A4 poster. The printing and binding quality on each of the volumes is decent and the artwork is displayed in crisp detail. Chapters read right to left to maintain the original artwork layouts (as opposed to mirroring the images to make them read left to right in a Western style). The box itself is sturdily constructed in a (inexplicably) travel-friendly format with a door/flap that folds over the spines of the books and a plastic handle on top. Special attention to the ergonomics of the use of the box (such as leaving spaces above the volumes so that they can be easily taken out of the box) and reinforcement in the right places to make the box strong enough to carry impressed me. The only drawback is that the door/flap hides the books from view, which isn't ideal for displaying the box set on a book shelf. I'm also not sure why the box was constructed to be travel-friendly and have considered cutting away the flap. The designs on the spines of the books also aren't quite level, which makes them look a little irregular and untidy. All in all the set represents Eiichiro Oda's beautiful artwork at a reasonable quality in an inexpensive format and as such is everything one would expect from a box set like this. There are however aspects regarding the design of the box set itself that one might not particularly like.

This set is amazing and comes in a nifty box. This is hands down the easiest way to collect the manga. runs a good sale on these vs. buying them separate. It comes with 23 volumes that are retail \$10. I got lucky and purchased for \$86 which is a savings of almost \$150. Sure, they used the name Zolo but we all know his real name and can ignore it. I'm so excited to finally own these and get a chance to read them vs. watching the anime.

I love so much this manga and it came in perfect condition. The artwork is amazing and the quality of the box is great too. Unfortunately, the mangas didn't come in shiny edition but I cannot complain with this great deal. Also it was delivered very fast and efficiently

I have been reading and watching One Piece since I first saw it on Toonami when I was a kid. It is the best thing I have ever read, but I do not need to tell you because if you are thinking about getting this then you already know that. Anyway the Translation is good, except they call Zoro 'Zolo' for some reason. Only thing that slightly bothered me was the 'poster' is about the size of two sheets of paper, I was expecting a full sized poster but it is not a big deal.

A terrific manga. In my opinion one of the best ever written alongside Dragon Ball. The art can take

a bit of getting used to at first but it grows on you and is used very well by the author. A hilarious work that keeps the fun coming whether you want it to or not. If you don't already have these volumes its a great way to get them relatively cheaply.

Amazing! You can't argue with this price... You have to think that one vol. of manga = \$9.99 (At least) X 23 = \$230.00. On top of that there is the box it comes in witch is Amazing. The artwork is fantastic, the box itself is extremely sturdy (I don't know how I feel about the handle). You also get the nice poster and the small RD chapter Oda maid.

I love this set and they do save you a lot of money. I can't wait for set two to come in. anyone that Likes Once Pice and wants to get the mangas start out with the first 3 box sets

Finally got my collection.
