Customer Reviews

Specialty travel guides and atlases from AAA are the Most Trusted Name in Travel.

I bought this book because I have always been a big fan of AAA travel guides, but in this case I wish I would have saved my money, you will do better with Bringfido.com or Dogfriendly.com. It still may be a good tool to use in the car when you are not getting good cell reception, but I cant see me using it at home when planing a trip. The dog park listing they have is very sparse, not sure how they gathered the information, but a google search for "dog parks in" or "dog parks near..." get better results. The listing of Emergency Animal Clinics was the only section I found helpful.

The book is helpful. But the nature of paper means pricing goes out of date. Either because the hotel raised its rates or they're playing games when they find out it's AAA recommended and it's too late to shop around. I also found that certain hotels not listed will allow animals. Hampton Inn was inconsistent from hotel to hotel. Wish the chain was all pet friendly.

It has a lot of information but you're better off going on line and getting real time information.

It is a great book for anyone who travels with their pets. I have to confess that I bought it (and quite a few more copies) because my dog is featured on the cover!!

About to get the use of this book on our first car trip since getting it, but good reading otherwise.

Exactly what I wanted. Very pleased. Had an older version and had no qualms about ordering this one.

provides thousands of options for traveling with our cat. Had an earlier edition and used that regularly.

A good product as advertised.
