We expect a lot of Trelease, and this enticing anthology does not disappoint. The 50 selections, sensibly grouped by subject (real life, fantasy, classics, folktales) and difficulty, range from good to outstanding. Some are complete stories; others are appetite-whetting chapters from novels; all are aimed at K-4. Many pieces come from "old favorites" (Bambi , Homer Price , Charlotte's Web), while others have been rescued from undeserved obscurity (including a French gem, "The Magic Thread"). Each carefully chosen piece has also been given a setting that shows it to best advantage. Trelease easily captures the reader's interest, particularly with his engaging introductions but also with the lively note on follow-up reading that rounds out each selection. The buttonholing excitement of the title animates these fascinating mini-essays. Not only will this collection circulate, but the sources Trelease so enthusiastically describes will get a boost off the shelf too.- Patricia Dooley, Univ. of Washington Lib. Jim Trelease is the editor of two anthologies, Read All About It! and Hey! Listen to This, and the author of the one that started it all, The Read-Aloud Handbook. His writing has appeared in the New

York Times and the Washington Post.

This is a really fun book and my 5-year-old really enjoys the stories. Now it's up to me to go to the library and actually get the books for the snippets that I liked. It's great for adults with introductions and background on the authors. It has a wide variety of stories to keep everyone interested.

We just got this book today and my kids did not want me to stop reading. What more can I say! I am very happy with this book. Not only does it include stories, but has a section at the beginning to explain them. I am really looking forward to working my way through this book with my children.

I tell stories as a school counselor and this is one of the books that helps me more than so many others! What an amazing resource and one full of stories for me to use over and over again. Jim Trelease is full of stories and gives you more than you could ever imagine! Wonderful!

This was the first book I bought myself as a teacher. It was a treasure to me and the books I chose to read from it delighted my students. Now those books are delighting my granddaughter.

This is an awesome book of books. Even you are not interested in reading aloud, it serves as an excellent resource of kid's fun reading list. I only hope it had included more books for girls - the author has two sons, so it's very natural that his list is more boy-oriented.

My four sons beg for me to read this every night and it has given us lots of new book ideas to try when we're done with this one!

This along with Why read A loud is a must have on everyone's book shelf. Some books recommended were difficult to find in the library as they were old books but worth trying at your local library

My wife's school students love to have stories read aloud - which leads to individual students reading aloud. Great book.
