Customer Reviews

I am so happy I found this book. After a couple of lessons there is an assessment that goes with the skills taught. Each page also had a brief explanation of the concepts. It isn't a stand alone grammar book, but definitely works well with a little review/instruction.

this is a fine book.it not only explains grammar, it explains different kinds of sentence ;punctuation.it explains declaitive,exclamitory,interagative and imparative.

Definitely helps the child grasp common grammar problems, and helps them write a composed paper. Step by step simple instructions, and great worksheets! Love it.

Very helpful for a 5th grader having a little trouble with grammar. She has been able to use this on

her own.

OK

this book is very easy to use. I love the perforated pages that you can take out of me copy for the kids has the answers in the back small subject matter in the box preceding the exercise I would recommend.

Very good practice for my girls.

Great supplement for homeschool curriculum. This is a short book, I use it for on the go schoolwork. For the price I'm happy.
