Customer Reviews

Quite simply, this is a narrative that everyone should want to listen to or read. It reveals a view of history that is at best ignored and at worst, actively suppressed. I listen in my car on the way to and from work. It is informative and easy to listen to.

I have a hard time not wanting to give this five stars. I LOVE this book, I truly do, and I wanted my hubby to be able to read it too. He drives a lot and so audio is the best way to go. He was thinking Matt Damon? Cool!- We love his movies, BUT apparently poor Matt can't read with inflection to save his life. My husband has a very hard time staying focused on the narrative of the deadening voice.

Sorry Matt, as picky as you can be in directing and acting, etc. .. you apparently are not so hot as a narrator.

Was not what I expected. Not the full book version.

Very pleased.

As expected

Should be required reading for all Americans

Thought I had ordered the whole history. It wet my appetite I want to know all of it.

excellent
