Learn Languages & Learn French & Learn Spanish: Language Learning Course!: 3 Books In 1

Synopsis

3 Books in 1! Buy Learning Languages, and get 2 bonus books! Audiobook 1 - Learn Languages: A Simple and Easy Guide for Beginners to Learn any Foreign Language. This is the place to do it, no questions asked. This audiobook uses a combination of orthodox immersion methods in order to make you go in one end a complete newbie to a language, and come out the other a fluent speaker. It won't be any shortage of work on your part, but this audiobook is going to set you up with all the tools that it possibly can, so that you can be a fantastic speaker of a second language in as short of a time as a few months. Through encouragement, motivation, rational observation, and careful breaking down of key concepts into malleable bite-sized chunks, this audiobook makes learning language easier than it's ever been before. Audiobook 2 - Learn Spanish: A Fast and Easy Guide for Beginners to Learn Conversational Spanish. Let's face it: the language market is changing. English has been the lingua franca for a while now, but it's not going to always be that way. It's projected that Chinese or Spanish might take over the English language as the lingua franca in the next century. So it makes sense that you're searching this audiobook: Spanish is an in-demand language to know. By knowing Spanish, you're opening the door to communication with hundreds of millions of more people than you could speak with before. This makes you a desirable asset to a great number of companies, and makes you an all-around, more well-rounded person. Audiobook 3 - A Fast and Easy Guide for Beginners to Learn Conversational French. Are you looking for the best way to learn French? Well, look no further. This audiobook is, simply put, the best on the market for learning French. Why do I say that? Because this audiobook does what language books should do - teach you the mechanics of the language, not a bunch of tourist trap phrases that you'll forget the second you leave the country. If audiobooks don't do that, then they make the critical mistake of going into far too much detail, and managing to bore you half to death by virtue of the fact that they've spent too much time going on about three different kinds of articles. I don't do that either. What this audiobook does do, and does very well in fact, is set you up with the knowledge that you want and need of French in a very short time frame, so that you can blast through this audiobook and already feel like you're set up for success. Don't waste your time and money on a subpar French book. Go with the best from the get-go.

Customer Reviews

Excellent! These are the language books I always dreamed of. It takes you gently by the hand and walks you through a structured and well thought out process that will have you learning languages and retaining them faster than ever. I've already started applying the techniques, and already in these early stages I find myself retaining more than my previous attempts, which is making it easier to stay applied! I would strongly recommend this clear and easy to follow guide, in the murky, often contradictory and difficult world of language learning. Really worth recommending!

This book is excellent! The book contains how to rote memorization service to reinforce grammars and explore your vocabulary and understand various languages. It's a very sure piece revealing the very best guiding tools for an efficient Spanish learning. Perfect book with a decent summary of information!

This is such a very helpful guide to learn languages. It will teach hundreds of new words with meaning. It teaches language in a very easy manner

This book has substantiated my expectation about the French language. It is true that the French language has a lot of similarities with the French language. And what is more challenging from this guide to know that you really had learned the language is that it has exercises to be performed or answer which is fun and enjoyable as you would be able to practice what you have just learned.
