Customer Reviews

Albert R. Jonsen, PhD Professor Emeritus of Ethics in Medicine University of Washington School of Medicine Seattle, WA Senior Ethics Scholar in Residence California Pacific Medical Center San Francisco, CA Mark Siegler, MD Lindy Bergman Distinguished Service Professor of Medicine and

Surgery Director, MacLean Center for Clinical Medical Ethics University of Chicago Chicago, IL
William J. Winslade, PhD, JD James Wade Rockwell Professor of Philosophy in Medicine Institute
for the Medical Humanities Professor of Psychiatry and Preventive Medicine and Community Health
University of Texas Medical Branch Galveston, TX

Jonson and Winslade have provided us with the one indispensable guide to hospital biomedical ethics. I have served on three ethics committees since 1982, and have taught hospital biomedical ethics to physicians, nurses and clergy. This text is universally appreciated for its clarity, lucidity and authority. To attempt the discipline without this text is to be less than completely competent.

A very clear presentation of how to structure an ethics consult. Provides an excellent summary of the thought process that goes into an ethics consult and some very good examples. Recommended especially to Ethics Committee members who are wading into ethical waters for the first time.

Return

It is a very good manual for clinical ethics. Particularly in an American context.

Simple and practical especially for bedside ethics and teaching students

This book was very easy to read and informative. I learned a lot without feeling like I was reading for a cause(school). I liked this book a lot.

Medical care is often difficult, with major ethical decisions to be made. Clear outline of guiding principles, case law, and rationales.

Exactly what I needed for my class.
