## Customer Reviews

Very nice coffee table book. Excellent quality paper, tightly bound.

This is a great book loaded with pictures of a lot of mature and very hot men. It is mostly targeted at the gay audience, but I think that there are some women that would enjoy looking at this book as well. The photographer, Blade T. Bannon managed to capture great pictures of real men in this book. These are very masculine men with hair where there is suppose to be hair. It's not a bunch of shaved, slim, models like most books like this seem to feature. It's real men and good looking ones as well. This book has mostly what I would consider Bears, but I guess that's because I am a Bear and in my 40's. I guess I would be considered a Daddy now. When I think of Daddies, I think a little older from 60 and up, but I love this book.

The pictures are all pretty great. Very attractive men over 30 (most over 40). The book is also being offered at a great deal on here. The size of the book is smaller than i expected for a photography book, it is very much "coffee table" sized. The reason I deducted stars is for the darkness of the images in the book. None of the pictures really "pop" and fine details are lost and colors seem a bit dull a lot of the time because the published photos are just way too dark. I had to put it directly under a lamp a few times to really get a good look at the photos, and my eyesight is fine. Im only 30! Even the cover image appears darker in person than on here. I don't regret the purchase, I love the men featured, but the quality of the published photos isn't as impressive as I'd hoped.

If you a admirer of rough, rugged handsome older men, this book is for you.

An amazing photo book and great conversation piece.

A very up close and personal look at the masculine adult body. These men are everyday men who exud virility and manliness. A very nicely bound book with beautiful pictures.

Hunky. Great book.
