Grade Level: Preschool and up

Customer Reviews

Incredible resource for kids and adults alike. I love the layout of this book. Although I am not a fan of the "stories", I do love the factual information provided, recipes, uses, history, etc... If you are new to herbs, I believe this book will intrigue you to search out more herbs and uses for your personal needs and wants. Easy to read and understand, great book for beginners!

Phenomenal book, full of useful information for kids of any age. I bought this book as a gift and ended up having to buy two more. One for another family member and one for myself. The little stories and coloring pages are enjoyable. The book is easy to navigate and has become a household favorite! I would recommend for kids of all ages!

I bought this to use with my children, but I find that I love it most of all. I am learning so much from

this wonderful handbook. If you are interested in learning about herbs, whether or not you have kids, I think that this is a good place to start. Lots of reliable recipes, and information.

We have three older girls that enjoy using this book for cooking and preparation for meals around the house. it can be quite a source of inspiration when they are feeling up to cooking!

LOVE LOVE LOVE this book full of things my children and I are going through. I skip around in the book according to what we are learning at the time. Studying Herbs is important to our family and I just love this resource that breaks it down into small digestible sizes for kids and even adults! This alone stands as part of our curriculum.

I bought this book for my son who is almost 14. It is packed with information. It has songs, recipes, stories, in addition to other info about herbs. I love the sketches and there are lots of them. I love the cover of the book as well. The sketches inside the book are not in color, but I am not sure that is a bad thing. Kids could color them with crayons or colored pencil, etc... I can see kids of all ages (just like the title says) loving this book, as well as adults loving it! My son is going to have to share this book with me.....

This was also bought (with DK Eyewitness Plants) to help with a Harry a potter unit study (Build Your Library). This has great informatiin. The pictures are in black and white but we find that easier to distinguish details of tricky herbs.

I bought this for my niece and she loves it! I love it so much I'll be buying one for myself as well. Great remedies for illness and songs to sing to remember herbs. Stories about the herbs. It's just amazing!
