Synopsis

LIMITED TIME BONUS INCLUDED: FREE Ebook and ecourse on Mindful Meditation. Learn the Basics about Hindu Beliefs, Gods and RitualsThis book contains an easily accessible overview of the Hindu religion, with a focus on those coming from the Western religions and cultures. While quite a few of us in the west are familiar with at least some aspects of the religion (karma for instance), most of us lack any real depth of understanding of the complexities and nuances of one of the worldâ™s oldest and most diverse religions. I hope that by reading this book you can at least begin to scratch the surface of this rich and intricate religion. We will cover the basics of the belief system, including the concepts of karma, reincarnation, ahimsa, and the one Supreme Being. These concepts unite all the various sects of the Hindu religion, as well as all of the regional and familial variations in what is a rich and complex religion. The pantheon of the gods is described, with an emphasis on each godâ™s function. The rich symbolism present in their depictions is also explored, for a small sampling of the main deities. A full treatment of the symbolism is a subject worthy of a full semester college course. Not only is Hinduism rich in its diversity of gods and goddesses, it is also filled with many different rituals and festivals. Some of the most important rituals that punctuate the life of a Hindu are described. Rituals that are performed for pregnancy, birth, and death are common. Like we are accustomed to in the west, the Hindu religion also celebrates many holidays. I describe some of the most popular. Finally, I give a brief overview of what can only be considered one of the largest collections of religious scriptures in the world. They number over 100, though not all are accorded the same significance. This work is intended to serve as a jumping off point for you to begin your self-exploration of the worldâ™s oldest and third largest religion. In this book, you'll learn...Fundamental BeliefsThe Many Faces of BrahmanHindu Rituals, Ceremonies, and FestivalsHindu Holy TextsMuch, muchmore!Download the book today to learn the basics of Hindu Beliefs, Gods and Rituals..and get the FREE bonus Ebook and ecourse on Mindful Meditation.Tags: Hinduism, Gods, Beliefs, Rituals, Religion

Customer Reviews

The book is so simplistic that it is factually inaccurate!!! Ms. Peters the author, either knows nothing about Hinduism and Eastern religions or spent an hour writing this book it is NOT worth buying or reading! If the author wants to contact me I will run through the list of errors and inaccuracies. It is not worth the price. Be forewarned!

This book is a quick read but covers many aspects of Hinduism in theory and practice. It explains schools of thought such as Saivism and I was very interested by the various gods such as Brahman and Ganesh, and I like the explanations of the symbolism of each portrayal of the gods such as Ganesh and success/wealth. The section on ceremonies and festivals give a good practical description on events such as marriage and birth, and religious festivals including Diwali. I was particularly interested in the description of the Marabharata texts, finding out it is the longest poem ever written. The book has given me a solid understanding of the religion as a whole.

A short and precise overview of Hinduism for Western religions and cultures and the one who doesn't have any idea about Hinduism. This book provides an introduction of the Hindu belief system, main gods and rituals, their holy books and a brief about their method of worship.

I have always been curious to know more about this religion but given the fact that it is so complex it was always hard to grasp everything and get to the point when you understand everything. But this book makes it easy to put everything together. Everything is explained simple and it is very well

structured. I honestly hope that the author will write other books related to this one to explain every section in more detail.

The book is well written and conversational in style. I have recommended this book to many friends that are curious about other religions and cultures. You will learn where Hinduism originated and why it was so popular. A detailed explanation is provided about the major beliefs and practices of Hinduism and their basic Hindu Rituals. Very informative book about Hinduism.

Topically informative. I was expecting a bit more depth.

I got this book for a school assignment on Hinduism and I didn't know anything about the topic. I got the basics I needed for me to get an overview so now I have finally got the work started, thanks!

Good book to start with.
