Forensic And Legal Psychology

Synopsis

Using research in clinical, cognitive, developmental, and social psychology, Forensic and Legal Psychology shows how psychological science can enhance the gathering and presentation of evidence, improve legal decision-making, prevent crime, rehabilitate criminals, and promote justice. Although the emphasis is on psychological research, the textbook makes extensive use of actual cases and real trials to engage students and to illustrate the relevance of research findings. Written in a clear, student-friendly style, Forensic and Legal Psychology is designed for both the psychology and law AND forensic psychology class. Mark Costanzo received his Ph.D. in social psychology from the University of California at Santa Cruz. He is a professor of psychology at Claremont McKenna College and a member of the plenary faculty at Claremont Graduate University. He has published research on a variety of law-related topics including police interrogations, false confessions, jury decision-making, sexual harassment, attorney argumentation, alternative dispute resolution, and the death penalty. He has also published research in the areas of nonverbal communication, teaching techniques, and energy conservation. Professor Costanzo is author of the books, Just Revenge: Costs and Consequences of the Death Penalty and Psychology Applied to Law. He has co-edited four books, including, Expert Psychological Testimony for the Courts and Violence and the Law. Professor Costanzo has served

as a consultant or expert witness for more than 80 criminal cases. In 2008, he was the winner of the Outstanding Teaching and Mentoring Award from the Society for the Psychological Study of Social Issues (SPSSI), and in 2010, he received the Outstanding Teaching and Mentoring Award from the American Psychology-Law Society (APLS). Daniel Krauss completed a joint degree program in psychology and law at the University of Arizona, receiving his J.D. and then his Ph.D. in clinical psychology and psychology, policy, and law. He is a professor at Claremont McKenna College, and is a plenary faculty member at Claremont Graduate University. Professor Krauss is primarily interested in the interaction of law and clinical psychology, and has published a large number of research articles and book chapters relating to clinical psychological evaluations for the courts, legal and psychological expertise, and jury decision-making. He has co-edited 3 books, and is the co-editor of, the law and public policy: psychology and the social sciences book series by the American Psychological Association (APA) Press. Professor Krauss is licensed to practice law in Arizona, is a member of the United States Supreme Court bar, and has served as the United States Supreme Court Fellow to the U.S. Sentencing Commission. He is a licensed clinical psychologist in the state of California, and a diplomate in forensic psychology, board certified by the American Board of Professional Psychology. In 2010, he was awarded the Early Career Research Award by the Western Psychological Association. --This text refers to an alternate Hardcover edition.

Came here looking for the 2nd edition, which is what is advertised if you look at hardcover options. If you click on e-textbook options, it only shows the Canadian version. I should have looked more closely, I searched for the book I needed and once I found it, I clicked on the digital format and completed my purchase. This is not the same book.

Loved this book! It is an extremely interesting book that was hard to put down. Personally I believe it should be a book that all Middle School students should read and then be required reading again in college. Professionals who often forget what tragedies can occur by the misuse of information need a reminder. This book does it with case illustrations that are not drawn out to where you need a degree in law just to understand what is being conveyed. My teenagers have become interested in this book as well. That alone should tell you, it is a book that will capture you, shake your beliefs, and open your eyes! It will stay in my personal library and a discussion in my household.

I was required to read this book for a class and I can honestly say this is the only textbook I have read start to finish and it held my interest. I would recommend this book to anyone who wants a

better grasp on psychology, also anyone interested in family law or forensic law. The text is very easy to understand, there are a lot of pictures and diagrams and explanations of key words.

I had to buy this book for an introductory course to legal psychology. This book is very well written, it is very engaging and covers all the main theories and concepts related to Forensic and Legal Psychology. Once you open a page to a chapter YOU WILL NOT WANT TO PUT IT DOWN.

Quite the necessary book for a forensic psych major ;) Has some interesting topics broken down into chapters that are easy to read and digest.

Purchased this book for a class and it is a easy read. Text is a decent size.

The book spent more time looking at the legal system and forensic science than psychology, but it's still interesting.

Love it! Using in a Criminal Psych high school class. Great chapters and interesting topics.
