Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This is a stitch-bound book so it will stay open while your hands are occupied playing. I haven't gotten very far in it because I've had it for about five days but in looking through the book it seems like it will help me get more comfortable with shifting finger placement and left hand independence. In fact, the first exercise in the book is for left hand only. I give it four stars because the print is a

little small. I also play flute and trombone so I know how to read treble and bass clef, but it is a little difficult to follow at times because of how notes are a little cramped together. I do, however, appreciate that they have organized the book so far to alleviate the annoyance of inconvenient page turns.

I am very pleased to have this book. As a piano teacher with more than five years teaching experience, I would love to recommend this book for all late beginner to lower intermediate student. This book integrate with variety of finger exercises which is very practical and definitely will benift your playing skills!

Pleasantly surprised by the simplicity of the exercises, this book was well thought out and put together

Great exercises that are not boring yet challenging.

These will be great for our son to practice piano and learn how to play.

Excellent resource! Includes meaningful and useful content.

Fast deliver and great book

Perfect for my students.
