Customer Reviews

Let's face it. Daddy cannot always be available to read books to his little princesses. When I am, I do. However, when I am not around to do so, these books are a great way for my kids to read about their own princesses, monsters, etc. A cheap boom box also purchased on Amazon and they are good to go. It also helps to teach my daughter to read, as she is looking for the words she hears even when I can't be there to read to her. We read the books together when we can, but in the meantime, these books are fun for her. Sometimes when I am feeling lazy, we listen to them together instead of me reading!

Well I don't especially like the story but my daughter LOVES it. She is 2.5 years old and an avid Sofia fan. She listens to it over and over in the car. She can easily listen for the indicator to turn the

page. The CD and picture quality is great.

Cute story. I read the story to my daughter first and then we do the read out loud CD in the car. My daughter has followed along in this book several times and enjoys it every time. Story lasts about 15 minutes.

My 6 yr old granddaughter is hooked on Sofia so I was pleasantly surprised to find her first read-along book/CD to add to her growing collection. I hear she has listened to this story many, many times and still keeps the book on top of her book stack by her bed!

Much to my husbands' dismay, my son listens to this book every SINGLE night before he goes to bed. He says there is nothing scary or loud or anything he doesn't like. We both love Sophia!

A former coworker asked me to order this for her daughter. From my understanding she likes it a lot so I'm happy that this was a great buy for them.

3 year old listens to it in the car and follows along in her seat with the book.

Good story, fun to watch her "read" and understand the story! I would recommend this to anyone with little girls interested in reading themselves.
