Book by Sloan, Jean

Just received it so I really haven't had time to review it. However at a glance it has great looking pictures and appears to be very informative. I look forward to spending many hours doing research with my new book

So fascinating, I can't put it down!

I'm an antique/collectibles dealer. This book has been a great help in identifying my mini perfume bottles and a price range for them.

Good reference from this authority.

Perfect

Nice book but most of the photographs are black and white. Seriously, today a book can be updated in minutes with a computer! This book would be much more attractive and salable if it were in color. Other than that, the information is great, the bottles are nowhere else to be found, and it

really enhances my collection! If you can imagine the color scheme, then by all means add to your collection!

Great book. Arrived in perfect condition. Thanks

This book is a must for serious perfume bottle collectors. Many books on perfume are reluctant to give values to bottles and this book does. The photography is great.
