Customer Reviews

What a great book. I ordered the audio version so that I can review often. I have met Weldon and he is a very genuine person. He spent two days with my employees and made a significant impact in their lives and mine. Its is now mandatory reading for all of my managers.

I read this book on direction of a coach in a new field I am choosing to pursue. At 55 years old the thought of starting a new reality is somewhat daunting. If that's what I thought, it surely is what I was going to encounter. Sometimes you just have to be open to seeing the same thing in a different way.

Dumping my box and starting today. After all yesterday is a wrap. I will be sending this in hard copy to my son. He is handsome and charming. He is also in prison. I am hopeful that he will also dump his box.

This is exactly what I needed at exactly the right time. I've ready many other books that explain the power of visualization, a daily quiet morning ritual, consistency, and taking action. But Weldon Long's book hit me where I was getting caught up - in the regularity of the habit, the consistency, and more powerfully, the power of looking only at one or two next steps at a time. As Long says "the confused mind says 'no!'". One other thing that is is hugely empowering to me is Long's history. His journey from prison after being convicted of three felonies to the success he is today seems to be nothing short of a miracle - except it isn't. Long consistently put into practice what he prescribes in his book, changing his mindset (the contents of his "box) in the process. If a "three time loser," as Long used to refer to himself, can do it, then so can I - so can anyone.

After a class taught by Weldon Long we were eager to get our hands on this book and it did not disappoint. Taken from a man with nothing to offer the world and no easy way to dig out of a huge hole, these words show that anyone can make the choice to change their life. Simple steps, easy to follow and giving the confidence to dream big and then do what it takes to accomplish each and every dream. You just have to want it enough to do what it takes - because as Weldon Long says "it's easier not too". We have purchased several copies to share with all our family, friends and all our employees. They have seen the change of direction in us and ask about the process. We are excited to share and eager to take this journey with anyone around us. There are so many self-help books out there, but none like this. Real words from a down to earth, real person that you can relate to vs. other books. I would recommend reading Weldon Long's first book "The Upside of Fear" first to have an even deeper appreciation for what this book and man have to share. Both leave you feeling inspired and ready to reach your dreams and beyond. Thanks Weldon!

<http://amzn.to/2lk0eFD>Weldons life is such an inspiration and I just enjoyed reading everything about this book. I first discovered Weldon's journey on a Wiley Jolie talk show. It was great! After the show I just had to get the book!!

I bought this book on Audible. Listened to it twice. Then decided I needed a hard copy so I can mark it up with my highlighter. Growing up I would never have considered writing in a book or bending

down a page... but as I've aged, I've come to finally realize... HEY! I PAID FOR THIS. I'll do what I want to it, and I like going back over certain content... certain key ideas... over and over. That's where the highlighter comes in.

This book is AMAZING and the story of this man truly remarkable. One has to APPLY THEMSELVES to do what he did though. Plenty of books contain recipes for success, but WE have to DO the WORK to be CONSISTENT.

I've been in a spiritual journey for while and got very impressed how Mr Long can talk about all that I've learned in a very simply, direct and powerful way. As he own says, it is not rocket science, but it serves little purpose to study, envision and talk about nice things if we don't put it consistently in practice. It was a warm reminder through a beautiful self transformation history that contributes to business and personal life.
