Using Trauma Theory To Design Service Systems: New Directions For Mental Health Services, Number 89

Synopsis

Mental health practitioners are becoming increasingly aware that they are encountering a very large number of men and women who are survivors of sexual and physical abuse. This volume identifies the essential elements necessary for a system to begin to integrate an understanding about trauma into its core service programs. The fundamental elements of a trauma-informed system are identified and the necessary supports for bringing about system change are highlighted. The basic philosophy of trauma-informed practice is then examined across several specific service components: assessment and screening, inpatient treatment, residential services, addictions programming, and case management. Modifications necessary to transform a current system into a trauma-informed system are discussed in great detail as well as the changing roles of consumers and providers. This is the 89th issue of the quarterly journal *New Directions for Mental Health Services*.

Book Information

Paperback: 120 pages

Publisher: Jossey-Bass; 1 edition (April 10, 2001)

Language: English

ISBN-10: 078791438X

ISBN-13: 978-0787914387

Product Dimensions: 6 x 0.3 x 9.2 inches

Shipping Weight: 7.8 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 4 customer reviews

Mental health practitioners are becoming increasingly aware that they are encountering a very large number of men and women who are survivors of sexual and physical abuse. This volume identifies the essential elements necessary for a system to begin to integrate an understanding about trauma into its core service programs. The fundamental elements of a trauma-informed system are identified and the necessary supports for bringing about system change are highlighted. The basic philosophy of trauma-informed practice is then examined across several specific service

components: assessment and screening, inpatient treatment, residential services, addictions programming, and case management. Modifications necessary to transform a current system into a trauma-informed system are discussed in great detail as well as the changing roles of consumers and providers.

MAXINE HARRIS is codirector of Community Connections in Washington, D.C., and executive director of its National Capital Center for Trauma Recovery and Empowerment. ROGER D. FALLOT is codirector of Community Connections.

Great Price!

Actually she loaned me her book and I found it so useful in attempting to get my brain around this new trauma focus that I bought my own

The book was in perfect condition-thank you

Excellent book on trauma and trauma informed care. A must read for all service providers, and anyone who comes in touch with the public.
