DON'T RUN, Whatever You Do: My Adventures As A Safari Guide

Synopsis

The Okavango Delta, Botswana: a lush wetland in the middle of the Kalahari desert. Aged 19, Peter Allison thought he would visit for a short holiday before going home to get a 'proper job'. But Peter fell in love with southern Africa and its wildlife and before long had risen to become a top safari guide. In *Don't Run, Whatever You Do*, you'll hear outrageous-but-true tales from the most exciting safaris. You'll find out when an elephant is really going to charge, what different monkey calls mean and what do in a face off with lions. Sometimes the tourists are even wilder than the animals, from the half-naked missing member of the British royal family to the Japanese amateur photographer who ignores all the rules to get the perfect shot. *Don't Run, Whatever You Do* is a glimpse of what the life of an expert safari guide is really like.

Customer Reviews

I've never been on a Safari, might never be on one, but that's what's great about books and in this case Audio Books too. In the theater of the mind you can go anywhere! I got this book while on a 'daily deal' because of the subject and it had available the Audio Book format and 'Whispersync' functionality between both the Kindle Book and the Audio Book. I enjoyed the authors reminiscing and stories of his adventures in his life as a guide. I found it interesting to see behind the curtain of

a job that I'm sure like many others, the public doesn't get to envision. The Australian sounding reader of the Audio Book was very good and translated the stories from page to voice well. A good memoir.

Author tries to walk too fine a line. Either tell the true story, unfiltered or don't bother calling it true tales. Too whitewashed for me. Was looking for the raw and gritty reality of a 'true tales' memoir...this one isn't it.

This book was hilarious. I got it to prepare for a trip to Kruger park later this year, and thought it was simply going to be cautionary tales. This book was such a treat, and I couldn't wait for the next epically-told story. Recommended to all wildlife lovers.

Having just been to Botswana and South Africa on four different safaris, this book was recommended to us by our travel company. I needed some reading on the plane so we bought it. Oh my God, if you have been on a safari you can relate to everything in this book. Very well written and very, very funny. I have recommended this to friends and they all concur it is great reading. Highly recommended.

Great book, easy read most stories are only a few pages so easy to pick up and put down. But the stories are highly entertaining and well told

This was a quick enjoyable read. I have been to Botswana several times before and I bought this book for my children who I was taking to Botswana. The book was fairly accurate about the experience. I didn't particularly care for the author's general characterization of his guests/tourists. Reading this you would think that most of the guests were bores or nincompoops. My experience is most of the people I have met on safari were sincerely interested in conservation and for the most part enjoyable. That's not to say I didn't meet a few idiots! All in all, a humorous (mostly) and insightful look at going on safari. I'd recommend it for first time safari goers.

I loved this book. Having been on a photo safari years ago in Kenya and Tanzania, it was fascinating to see what safari life is like on the other side of the camp where people like Peter Allinson made things run. The narrative is simple and direct, without a lot of extra pages as filler. The author has a pretty good writing style, and he does a great job of describing both the joys of

guiding safaris as well as the occasional terrifying moments, sometimes on the same page. Highly recommended if you're going on safari or if you've been on one, or if you're just curious about what a safari is like.

I really enjoyed this book but that was in large part due to the fact that we just returned from Botswana, where one of the camp managers recommended it. Our first camp was in the same area as the camp that Peter worked at and one that he mentions several times in his book. Because of this we could easily relate to many of his stories and picture ourselves being in the far back seat of his Range Rover as he described events. In all honesty, if you have not been to Botswana I think you will still enjoy the book but not nearly as much as if "you've been there and done that". If you're like us, that might just be the excuse you need to pack a bag and head for Botswana! If you do go, Peter's book will give you a pretty good idea of the excitement and unpredictability of trekking through the jungles of Botswana in a Range Rover or trying to return to your tent from the camp bar and lounge area late at night. Would we do it again? You bet! In an instant! Our only regret? We were not part of many of Peter's stories! But then, we came back with our own set of stories. Enjoy.
