ISBN-13: 978-1881133209

Product Dimensions: 1 x 8.8 x 11.2 inches

Shipping Weight: 3.2 pounds

Average Customer Review: 3.8 out of 5 stars 65 customer reviews

Best Sellers Rank: #13,117 in Books (See Top 100 in Books) #6 in Books > Teens > Education & Reference > Language Arts > Vocabulary & Spelling #4270 in Books > Textbooks

Customer Reviews

Though a textbook, this is still one of the best and easiest to follow works on American Sign Language.

My teacher required this book for our ASL 1 class. I love that this book comes with a DVD that shows you the hand movements and shapes clearly. There are also exercises in the book that help you practice your conversational ASL speech as well as perceptive skills. Study and practice the vocabulary in the mirror or with a friend. It will help you further understand and remember the information that's in the book.

This is one of the better Textbooks I've had. It's very clear with lots of good explanation. Sometimes the diagrams on how to do a sign are a little hard to figure out though. But that's where the DVD is so useful. However this textbook should be used as that: a textbook for a class. There are some things that need to be explained by a teacher, especially if the signs are different in the local dialect. But overall, it's a great book. It provides not just the signs for certain words, but also the proper grammatical phrasing, and even sections on Deaf culture. What's a really nice bonus is I'll be able to use this same textbook for at least three classes, not just one class like most textbooks.

THIS BS BOOK DID NOT COME WITH THE DVD AND THE ADVERTISING CLAIMED DVD WAS INCLUDED, IT SHOULD NOT SAY ANYWHERE DVD INCLUDED IF ITS NOT GOING TO HAVE IT.

This book makes it easier to learn. The only bad thing is that it didn't come with a DVD as it says in the description.

This is amazing! I learned ASL quickly and smooth. Although some of the ASL pictures are a bit confusing. I really love that there's a DVD! Keep in mind that Some signs change as time goes by, so there's different signs. But overall this was easy to understand

Just got this in the mail and had read the reviews before it came, some of the more recent ones stating the book doesn't come with a DVD. I took a risk, and the book of course doesn't come with a DVD. Not sure if anyone else's DVD problems were fixed by , but I guess I'll have to look at my university's bookstore to see if they sell/rent out the DVD separately.

Excellent condition. CD works and it's one of the best books out there to learn sign language !

Good and delivered on time but it did not come with the dvd like it said it would
