## Customer Reviews

I have to say that after reading "Influence" I was very reluctant of reading this prequel story. Usually I don't read prequel stories because I'm not interested in them, but I'm glad I did the exception with this one. The short novella "Humanity's Protectors" takes you 30 years back from the "Influence" story, and this time is Leeyah the character who is narrating her present. She is as well an Influencer, but she works for the corrupted government (she doesn't know that though). When she

refuses to do a task she's given by them, her reality starts to change, her rescuers' intentions are not the best, her family turns their backs on her, and only Sam is there to help her. This is a short novella, but truly takes you into an adventure. I am looking forward for more already! side note: My favorite part was Leeyah saying "My 'kind' is her sister".

It's not that big of a deal, to read this out of order, but it may have been slightly better to read this one first. I find it interesting that the main characters are female, but the author is male- and he writes in the first person. I'm not sure that I've seen a lot of that done, but he does it well. The characters are believable. I'm looking forward to more.

This book explained so much. How the war began and why the influencers got together in the first place. A wonderful kick-off book. I may need to re-read "Influence" now. Great read.

I really enjoyed this book. Couldn't put it down. It sucked me right in. Please go ahead and give it a try!

I voluntarily reviewed this book as part of the author's ARC program. Humanity's Protectors is a great prequel to Bernstein's Influencers. This book explains how the country fell so low. I enjoyed reading this book.

While I'm not a big fan of present tense narrative, this one held my interest thru very few typos. I'll be reading more. Unique concept, nicely done.

This seems to be a great start to a very interesting series. Loved it. Waiting for the rest of the story.

Great origin story to a fun series. I definitely recommend the Influence series by David R. Bernstein. Plus you get a sneak peak at book 1 in his Influence series!
