I love the discipline of MMA. The guys really inspire me with their work ethic and conditions. It contains a wealth of information regarding how to condition your body for MMA. If you are interested in MMA or want to win inside the Octagon pick up this book.

def a good read.

My hubby loves to watch this MMA TV. And my son does who's only 2 years old! I think this book will be their best guide in doing martial arts. No need to enroll for my son someday because this book has a complete guide, give you the best techniques in performing your self defense. I'm gonna keep this and re-open when my son reach at the age of 4.

I downloaded this to give myself a peek into what goes on behind MMA training. Good read! It's such a unique sport, and I was quite fascinated upon learning of the techniques and skill involved in it. This is the real deal if you're seriously considering starting to train for mixed martial arts. Would recommend!
