The Forest Speaks: Book 1 Awakening The Rose

Synopsis

Meet Jedda Delaney, a rather averageÂ teenage girl living a fairly normal and uneventful high school life.Â Until one morning, that is, when sheÂ awakens from a not-so-normal dream about a timeless and otherworldly place.Â This place is the Forest where magic and enchantment are commonplace, and possibilities are beyond the wildest imagination. But it was just a dream...or was it?Â Join Jedda inÂ Awakening the RoseÂ as she embarks onÂ an incredible journey of awakeningÂ - a path that requires only one thing: that she remembers something that lies buried and forgotten in the farthest depths of her own heart.

"A gentle story that tiptoes into the wonder-filled reality of nature and the trees. It helps remind us that we, as humans, are not alone, but a vital part of the miraculous wonder of all Life. The Word has always been: 'Be still and know that I am God.' Nature, and especially the trees, that the native tribes call 'Standing People', have always known and honored this.

Would that all of us could remember also!" ~ Rev. Marian Young Starnes, Founder of Terra Nova Center and Brigade of Light, author of Letters from Summerland

Ever since I was littleÂ I can remember being in awe of the beings of light often referred to as faeries. I was drawn to them, and I was enticed by the space beyond the veil known as the Faerie Realm. Of course, back then there weren't a plethora of Faery books filled with this subject matter - nothing that discussed the faeries as something other than characters in fairytale stories, a mere figment of a child's imagination. Well, I knew better than that. Don't we all? Over

time and very slowly a resurgence in the belief in faeries began. A Faerie books popped up here and there. Things like "how to find a fairy" and stories of enchanted forests. For some reason, I wasn't satisfied. These faerie books were only scratching the surface. A They weren't capturing and conveying the magic and wonder that I knew existed. Now don't get me wrong. Many a great metaphysician has written a thing or three about the faerie realm that proves to be quite accurate. However, there was still something left to be desired. It wasn't until much later that I would be able to articulate what it was that was lacking. What had been missing was the energy and essence of the heart! A This is what I could see and feel when I attuned to and accessed the faerie realm firsthand. And A finally a story came to me. A It arrived on a gentle breeze. There it waited, floating on the Mists, until I was ready to share it. This is one of many Faery books out there, it is true. However, it is my hope to not only A give you a glimpse of the magic and mystique that is the faerie realm, but hopefully inspire you to explore a relationship with nature A for yourself. For it is in returning to nature that we are able to heal ourselves and finally return home. Many may ask of this faery book - "Is this one real, is it fantasy?" The answer is somewhere in between - and ultimately it matters not. I present to you one story in a sea of many. A new kind of faerie book A - and yet the story is very, very old. I present to you The Forest Speaks series: This magical tale is A filled with adventure and fantastic characters, but really it is a story about all of us. And although I am the author of this body of work, really what I have written belongs to everyone. It is A about the journey we all make at some point A - a journey within to the Forest of our own hearts. It is my hope that as we each read this story A we may be inspired to explore the Forest A - both the one that exists within this book and the one within our own hearts - and in so doing A we can begin to remember our own truth, our own purpose, and thus we shall begin to awaken!

Read this book. It will awaken your memories of walking with the faeries and the mystical world. I couldn't put it down. Jeddha's journey is our journey. Thanks Diomira for opening up the elemental kingdom for me.
