Gudsriki (Valhalla Book 3)

Synopsis

Valhalla: Book ThreeThe end of the world has come, leaving Vibeke the sole survivor, alone in the desolation. She perseveres with only one goal in mind: to reunite with Violet, even if it means the destruction of what remains of the planet Earth. But the consequences might be even more catastrophic than Vibeke expects.A faint light still burns in the darkness, thoughâ "a last hope for love flickering amidst the atrocities mankind has wrought and the pain still waiting in the future. But it lies at the end of a long and deadly road.

Customer Reviews

My god, what can I even say?I adore the way every single one of these novels was written. The unique and breathtaking way Ari weaves the story is just that: breathtaking. There were so many moments throughout each book where I was glued to the page, my heart racing and my mind running wild with the beautiful, gory imagery throughout. The author has an amazing talent for wrapping up every loose end as they make the reader wonder exactly when that loose end will be taken care of... as well as tying up loose ends you didn't even know existed! I will admit, there were a couple of moments through each book where I had to put my phone down for a minute to really

absorb the sudden plot twist (and with one twist+hidden loose end I just had to yell into my pillow in absolute amazement! I've never done that before!!). Of course every single book is gory and violent and terrifying, but that somehow makes the adventure even better! I'm not one for violence in the least but the bloodbath(s) are incredible! All in all, this is one of the best series I have ever read, in one of the absolute all-time best universes I have ever had the pleasure to dip into! I highly recommend this to everyone! (Unless, of course, you aren't too fond of blood, guts, murder, and/or walruses...)

Hold on tight. The world has gone to hell in Gudsriki and simple survival turns out to be not simple at all. When you're a Valkyrie, though, just surviving isn't enough. Vibeke is a highly trained, nearly invincible warrior and can do nearly anything she wants simply because no one can stop her. That turns out not to make things much easier. This book is heart-wrenching. It does not hide or gloss over any of the flaws of the people we meet -- and they are surely flawed. It does not treat them (or you, the reader) kindly. It keeps hold of you long after you've finished reading it. You go through hell with the people you've come to care about (or loathe) in Valhalla and Ragnarok and sometimes it's hard to tell whether you pity them, sympathize with them or loathe them for what they do and what happens to them. You won't notice it when it's happening but the story also raises some big questions. What does it mean to be human? What makes a person or an act good or evil? What does forgiveness mean? How is your identity related to your memories? Is amateur neurosurgery ever a good idea? (The answer to the last one is 'no, but sometimes you don't have much choice'.)

Ari Bach does it again. Valhalla and Ragnarok were both amazing, and two of the best books I've ever read. And Gudsriki managed to surpass both of them. Every single page is engaging. From the very beginning, you're dropped into the world and witness the brutality that permeates this book. This isn't a happy book. It's a post-apocalyptic novel where everything is gone, all hope is lost. Chaos abounds. Like Valhalla and Ragnarok, Gudsriki contains high stakes, high speed action. But it's so much more. It's a story about a few people trying to make sense of a world without hope. It's a brutally accurate portrayal of humans after the world is over. It's an adventure and a love story like no other. I've never read a book like this one. It's in a class all on its own. Ari promised this, and he delivered. I just finished and I'm already excited to reread the entire series back-to-back.

This book is definitely unlike any book I've ever read before, it was actually quite refreshing and interesting. The ideas explored in this book are incredibly interesting and thoughtful. I really don't

know how to describe it other than that.

This series took my emotions through so many twists and turns. Laughter, tears, disgust, anger, you name it, this infinitely amazing work of literature will make you feel it all. Ari Bach, you are a literary genius, and I cannot wait to see what else the future holds for you. Thank you so much for this experience.

The last book in most series always ends up being anticlimactic and a bit disappointing. Not this one. This is the only series I've ever read that had a really satisfactory ending.

Best book of the series and ties together so many things that left me unsettled. Loved the ending and love Bach's writing. Really hope she intends to keep at it. Finding good contemporary authors can be tricky.

If you like your head and mind how it is, don't read this. This book is the best and worst book mankind has ever set eyes on. It should be banned, and all copies burned.
