"It has become clear to me after 30 years of education that a real key to success in life is how young people look at themselves, others and the world around them. There is no question in my mind that the principles in this book provide this opportunity for every single student. It truly raises the probability of success for a young person. -- Richard Engler "Principal"

Our 13 year old was struggling in eighth grade. He had started drinking and skipped school. After a meeting with his counselor, she suggested that he be enrolled in the "Top 20" class in his middle school. The school knew he was intelligent, knew he came from a good home, and wanted to give

him some tools to help him succeed. So we signed him up for the next quarter. The changes in our son have been astounding. He's still an eighth grade boy, with all the goofiness that goes along with that age group. but he has become more responsible (building his trust fund), more courteous, and happier. He has stopped drinking and is more involved in school than ever before. We really enjoy his company now, and can sit and discuss things with him in a civil manner. I highly recommend the book. We bought one when the quarter was half over so that we could better understand all the concepts he was talking about. Please, do yourself and your kids a favor. Urge your schools to send someone to the trainings and start a program in their school. It is money well invested in the future of our young people.

Book for my daughter (10) summer reading assignment. She seems to enjoy it. Our family too on occasion when we work through the questions with her.

Good book!

I chose the rating because the book has good common sense stuff that is easy to read and share. I have already used the 20/80 while talking to a political candidate for State Government.

Required reading at some prep schools. Presents how to develop successful character traits in a fun way geared for teens.

i bought this thinking that it would be helpful to a teacher. however, the book is written for teens, as in their teen lingo. but you can glean the same info from it, but just not as i had desired

I bought this book in a bundle with Top 20 teachers, and parents. I believe if you have a teen this is a great book to give them. I would have loved to have read this when I was in 8-11th grades.

This is a great resource! Very easy to read with great suggestions on how to be in the "top twenty" percent of people that biggest impact. Very practical and "teen friendly" tips for finding greatness in ourselves. Great for everyone, not just teens!
