Customer Reviews

This guidebook was so valuable for our recent trip to Charleston! It provided us with great tips for restaurants as well as provided us with the most ideal times to visit various attractions. Honestly, this is the first time that I will be using a travel book guide coming from an author that is new to me. To my surprise it never disappoint us! The author points out what we should see and what we "might" want to see, giving us a good overview before we embark on an adventure. IÃ¢Â™m so glad that I purchased it. Thanks to the author!

If you are planning on a vacation for 7 to 15 days within the country you should definitely visit Charleston, South Carolina. If you have never been here and you have little kids who want to know more about the place then this book is helpful to you. Not perfect but a very good effort, this book will give you an idea about the best places to visit, where to stay the night and where to get great food from. It also contains information about the history of the city in detail and can also be used to increase the knowledge of young children who are going with you on a vacation.

helpful with son new to area

I like the cover photo. It was like calling me and asking me to explore using a bicycle. And yes, after reading this book I would love to experience biking around Enchanted Garden or go Kayaking (oh, I tried it once I like to do it again). Charleston is a nice place to visit when you want to discover our

mainland before going abroad.

I love to travel. I love traveling around the world. Charleston is not a typical destination that everyone wants to visit. What I like about this book is it gives you the ideal places in South Carolina that you should visit to be exact Charleston and yes 25 secrets and our will never regret.

I know it was only \$3 but that comes to \$0.12 per paragraph. What a worthless book, at least in kindle version
