Deceased. ESTHER WILKIN (1902-1985) wrote several Little Golden Books for her sister Eloise Wilkin to illustrate. Deceased. ELOISE WILKIN (1904-1987) is one of the most beloved and prolific Golden Books illustrators. To many, her work embodies "that Little Golden Book feeling" as well as a certain, and seemingly simpler, time in America. Wilkin's loving depiction of the natural world, and her paintings of cherubic, chubby children, helped make Golden Books an icon. Her Little Golden Books *My Little Golden Book About God and Prayers for Children* have never been out of print.

This is one of my daughter's favorite books. It is really simple - it just talks about lots of different sounds that a child might hear, like a clock or a train or a car etc. It has a nice sing-song rhythm and the pictures are more realistic looking people than many other books feature. It is great size book to

bring along for travel as well. We love this book so much that we have bought as a gift for others.

Baby absolutely loves this book, as do I. (She goes crazy over the baby.) The illustrations are beautiful and inimitable, and the text is simple, timeless and charming. Pushes all the nostalgia buttons for mom and dad, while being relevant and captivating to baby. The only thing is, baby loves it so much that she has eaten most of the edges off the pages, because they are extremely thin paper, which can easily dissolve and rip. For some reason, I recall the pages being more sturdy, even laminated, when I was young--but this could be my imagination. I love the affordability of these editions, but it would be great if Little Golden Books could make them in the form of board books, so that they could survive the baby destruction zone...because Baby not only Listens, but puts everything in her mouth! That way, this classic beauty could last for years to come. Otherwise, I highly recommend. They just don't make books like this anymore. And I am so glad that Little Golden Books brought them back.

Cute book that shows a baby listening to different sounds. Sweet, great illustrations and one can just feel and hear the sounds when they read it. We take our world for granted and it taught me to slow down and smell the roses and listen to the different sounds.

wonderfully quiet, nice story line...illustrations are marvelous...by the wonderful Eloise Wilkin...a classic

My baby (13 months) reads this one over and over, err I read it to him! He picks it every day for us to read! He loves the pictures and the sounds you make to go along with the story.

2 yr old love adorable baby faces, and relates to many of the pages.

Very cute book the kids love it.

They added to the original and am not a fan.
