“A wide variety of popular country and farmhouse home plans fill this superb new plan book, making it a must for anyone looking for the down-to-earth quality and timeless appeal of the traditional American home. This diversity will guarantee you a magnificent variety of architectural impressions within this style.” —Home Plans Blog August 200 --This text refers to an out of print or unavailable edition of this title.

Country & Farmhouse Home Plans, the latest title in our new Home Plans series, offers the potential homeowner a wealth of designs in this perennially popular category of home designs that never go out of style. Providing a unique combination of full-color photography and illustrations, Country & Farmhouse Home Plans offers readers 350 plans of the best-selling and stylish home designs

available. From farmhouses with wraparound porches to center-hall colonials to comfy cape cods, this book offers a wide variety of home styles and sizes to meet the budget of most readers. In addition to the designs, the book offers practical tips and advice to create the home of one's dreams.

It really didn't have what I was looking for---more of an old looking farmhouse and just one level is what I was after!

very beautiful house plans. I really like this book, and am glad I purchased it. Will definitely help me with the decision making process and has wonderful ideas.

for farmhouse and country house plans, odd hardly any had a real farm country kitchen or pantry rooms. more for fancy want to be rural country farmhouse not real ones. seller was great fast shipping .

Offering 350 home plans in full color, 250- full-color renderings, tips on design, notes on home decorating, and quick and easy means to order services by phone or online, America, Country & Farmhouse Home Plans fully captures the experience of seasoned architects and designers. Vivid concept sketches, floor layouts, and full-color photographs make abundantly clear exactly the size, appearance, and structure of home one is getting with each plan. The homespun motif of country living reverberates in these dwellings; even a generations-bred city clicker will recognize the quiet, comfortable, practical feel to the design and empathy of each sample building, down to the sloping roofs meant expressly to prevent too much snow from piling up above. America, Country & Farmhouse Home Plans is an enjoyable and useful resource to page through, especially when contemplating decorations or especially architectural designs for one's own rural homestead.

Great!

This book is layed out very clean. Each house plan is easy to view, really nice color pictures, and unlike some country/farm home books I've looked at - the houseplans truly fit the category. I highly recommend it if you're on the search for a plan.
